Flame, Smoke, Toxicity Approved for Fast Track Rail Protection

Trim-Fast™ • Seal-Fast™ • Spring-Fast®

FST Trim-Fast Edge Trim

Silicone Finished Edge

Protects thicker panel applications
- ENGINE COMPARTMENT
- WIRE AND CABLE ASSEMBLIES

FST Seal-Fast Edge Seals

High Performance Silicone

Protects against extreme heat and cold.
Bulb compresses to prevent damage from environment and wear and tear.
Specifically suited for access, dash close out and tank hatch doors.
- DOORS, WINDOWS & CABINETS

FST SL Grommet Edging

Fully Encapsulated TPE

Protects wires and cables from chaffing
Low Profile—Low Weight
Features superior functionality and enhanced appearance in
- BULKHEADS, FLOORING & SEATING

Spring-Fast Grommet SL Series-TPE cable penetrations and raceways

Trim-Fast Edge Trim-silicone access penetrations

Seal-Fast Wing Seal-silicone windows

Protect-Fast Wrap-Nomex cable harnesses

Vulcanized silicone-framed parts for windows, doors and access panels

Seal-Fast Bulb Seal-silicone door panels

Molded silicone seating and stanchion supports

◀ First Class Protection ▶

Material	Body/Interior	Description	Standard Test Method
FST - Silicone	Windows Cabinets Doors	Flame Propagation	ASTM C 542 ASTM C 1166
	Bulkhead Flooring Seating	Toxicity	BSS 7329 ATS 100/ ABD 0031 ASTM 66Z
	High Temp: Engine Compartment		

OPTIONS

Coating:

- Low Friction - Flocking

Manufacturing:

- Molding - Extruding - Color matching
- Vulcanizing ends - Cut to length

High Speed Intercity, Metro Light Rail and Locomotives

◀ Non-Stop Performance ▶

ISO 9001:2008 • AS9100 / ISO 9001:2008 Certified • Registration No. AS19.4480
Certified Vendor to Fortune 100 & 500 OEMs, JIT w/ MAJOR OEMs Worldwide, supported by International Distribution
